

NYBG's Professional Learning Institutes for Teachers provide educators the tools and training they need to enhance their students' understanding of ecology, plant science, and the world around them. These programs provide a six-day immersion in which participants learn how to make teaching fun through field-tested, hands-on, inquiry-based activities that focus on STEM education. Participants may earn "P" in-service credits from the New York City Department of Education.*

Participants Name: _____

Home Address: _____

City: _____ State: _____ Zip Code: _____

Phone Number: _____

Email: _____

Employer/ School Name: _____

Employer/ School Address: _____

City: _____ State: _____ Zip Code: _____

Please check the multisession institute of your choosing (each session cost \$200 and includes curriculum materials, reproducible handouts, and plants):

- School Gardening 101—Creating a Garden
- Increasing Representation in the Natural World (Online)
- Seedling Institute for Early Childhood and Elementary Educators
- The Art of Science
- Plant. Learn, & Grow: School Gardening 201
- Ethnobotany for Educators: Exploring Plants Through Cultural Connections

Please make checks and money orders payable to: **The New York Botanical Garden**. Thank you!

Mail Completed form and check to:

The New York Botanical Garden School Programs
2900 Southern Boulevard, Room M295
Bronx, NY 10458-5153

**Three "P" in-service credits from the New York City Department of Education are available for all Institutes. Additional fees and requirements apply for P-credit courses. You should apply first for P-credits via The After School Professional Development Program (ASPDP). Then, after registering with ASPDP, you can return to NYBG to register with us.*
