Learning Spaces Designed for Kids

NYBG’s Edible Academy and Everett Children’s Adventure Garden offer daily activities in nature play, plant science, and gardening. These facilities also allow for a deeper understanding of the natural world through seasonal programs for ages 2–13.

EDIBLE ACADEMY

Programs at the Edible Academy reinforce important connections among plants, science, nutrition, and the benefits of a healthful lifestyle. The three-acre campus hosts year-round programming in a LEED Gold-certified classroom building featuring green technology, a teaching greenhouse, a demonstration kitchen and technology lab, and organic vegetable gardens.

Explore Nature Together

Looking for more meaningful activities to share the great outdoors with your young learner? NYBG’s Nature Explorers Program allows toddlers and their caregivers the chance to explore nature together.

NATURE EXPLORERS PROGRAM

Programs for Caregivers and Children (Ages 2–3)
Toddlers love adventures! Come along with your little one on a guided hike to discover the best spots in the Garden in each season. This hour-long program is designed for young children and their caregivers to explore areas of NYBG that have a scale and seasonal interest just right for little nature lovers. Each session includes songs, stories, and take-home projects.

Come Grow With Us

The Children’s Gardening Program offers the perfect way for kids to get outside and get their hands dirty at the newly opened Edible Academy. Guided by instructors, children plant, tend, and harvest fresh vegetables and herbs, and learn about topics from pollination to composting. Each gardening season offers unique and engaging activities customized for children ages 3–12. Register for one or more seasons!

CHILDREN’S GARDENING PROGRAM

Sprouts Program (Ages 3–5)
Accompanied by a parent or guardian, children ages 3–5 experience nature up close while investigating living things, tasting new foods, and making crafts. Spring through fall, Sprouts are introduced to the fun of planting and harvesting in the garden. In the winter, Sprouts explore the winter garden and our greenhouse, using both for seasonal activities.

$175 Non-Member | $159 Member
Fee includes all materials and participant t-shirt. Please note: One adult must attend per participant; no infants, toddlers, or older siblings. Programs run rain or shine.

Calling All Campers

Looking for enriching activities for your child over Winter and Spring Breaks? Weeklong science and nature camps for kids in Grades K–5 feature indoor and outdoor explorations, science investigations, and more in NYBG’s 250-acre landscape.

WINTER AND SPRING BREAK CAMPS

Cool Science Camp (for Children Currently in Grades K–5)
Campers chill out with fun science experiments, games, and hands-on activities during Winter Break Camp. Kids explore states of matter by turning liquids into solids and investigate adaptations that allow plants and animals to survive cold, icy winters. They warm up with visits to the Enid A. Haupt Conservatory’s tropical and desert collections to compare the plants growing in these environments.

Summertime and the Camping Is Fine

The Everett Children's Adventure Garden and the Edible Academy are the places to be for kids on Summer Break! Choose among several different day camps—offering playful and creative opportunities for children entering Grades K–8 in Fall 2020.

**SUMMER BREAK CAMPS AT THE EDIBLE ACADEMY**

**Culinary, Sustainability, and Art Camps (for Children Entering Grades K–5 in Fall 2020)**

Weeklong camps at the beautiful Edible Academy campus use the gardens as inspiration for culinary innovation, environmental stewardship, and art projects. Sign up for one, two, or all three themes.

Weekly: $350 Non-Member $315 Member
3-Week Summer Session: Save 10% when you use code EASU20 at checkout.

Session 1: July 6–24, 9 a.m.–3 p.m.*
Session 2: August 3–21, 9 a.m.–3 p.m.*

**Grow It, Cook It, Eat It Camp**

Session 1: July 6–10
Session 2: August 3–7
Whether you are a “top chef” or a beginner in the kitchen, sharpen your skills! From harvesting techniques to exploring the garden, make connections from garden to plate. Mix, measure, and flavor produce in creative recipes both healthful and delicious. Explore the stories of historical and contemporary chefs. Younger campers are introduced to new flavors and culinary tools. Older campers will explore new dishes and culinary techniques, and investigate the origins of favorite food crops.

**Garden Stewards Camp**

Session 1: July 13–17
Session 2: August 10–14
Are you a garden steward? Explore the fun of a good green life—from living roofs to pollinator-friendly plants to organic gardening techniques. Inspired by the Edible Academy campus’ green technology, campers will dig into composting in an exploration of cycles and ecosystems, and investigate how the sun powers people, plants, and animals. Younger campers explore sustainability through hands-on activities. Older campers use these activities to dive deeper into environmental stewardship.

**Paint, Craft, Create Camp**

Session 1: July 20–24
Session 2: August 17–21
Calling all budding artists to paint, craft, and create in the garden! Learn about art inspired by nature, then use new and familiar media to make your own masterpieces inspired by the beautiful Edible Academy campus and the Garden grounds. Younger campers explore the shapes, colors, and textures of the outdoors. Older artists build curiosity and self-confidence in creative self-expression.

*Early drop-off (8 a.m.), late pickup (5 p.m.), and extended pickup (until 6 p.m.) available. Pre-registration is required.

SUMMER BREAK CAMPS

Science Camps (for Children Entering Grades K–5 in Fall 2020)
Discover the world using a mix of nature exploration, science activities, art, group projects, and more in our vast 250 acres. Sign up for one, two, or all three weeks within a session.

Weekly: $350 Non-Member | $315 Member
3-Week Summer Session: Save 10% when you use code CPSU20 at checkout.

Session 1: July 6–24; 9 a.m.–3 p.m.*
Session 2: August 3–21; 9 a.m.–3 p.m.*

In order to ensure availability for all camp families, summer camp participation is limited to three weeks per camper. Choose any three weeks that fit your schedule:

Plant Explorers Camp
Campers become junior scientists as they go behind the scenes to learn about the amazing science research happening at NYBG. Campers design experiments and collect data out in the “field” on lots of exciting organisms and phenomenal

Session 1: July 6–10
Session 2: August 3–7

Forest Adventure Camp
Help your kids develop a love of nature! Through forest hikes, nature explorations, and scavenger hunts, campers will experience the wonderful world of our native woodlands.

Session 1: July 13–17
Session 2: August 10–14

Wild Wetlands Camp
Have your kids ever wanted to get their “feet wet” and learn about the amazing world of marshes, ponds, and rivers? This camp allows children to act like scientists and explore these habitats.

Session 1: July 20–24
Session 2: August 17–21

*Early drop-off (8 a.m.), late pickup (5 p.m.), and extended pickup (until 6 p.m.) available. Pre-registration is required.

SUMMER BREAK CAMPS

Summer Field Science Camps (for Children Entering Grades 6–8 in Fall 2020)
Do you have a tween who loves spending time outdoors, collecting data, and working in teams? Students will dig in as they learn more about the plants and animals on the Garden grounds and go behind the scenes to find out about field research happening at the Garden, in the city, and around the world!

Weekly: $350 Non-Member | $315 Member
3-Week Summer Session: Save 10% when you use code SCISU20 at checkout.

August 3–21, 9 a.m.–4 p.m.*

EcoQuest Camp
August 3–7
Campers explore unique ecosystems to collect data on biodiversity. Soil testing, forest diversity sampling, and water quality monitoring are some of the methods campers will practice as they gather information and report on findings.

Kids Count! Citizen Science Camp
August 10–14
Campers learn about citizen science projects happening all over the world, and participate in projects happening at NYBG. Teams use tools such as iNaturalist to observe plants and animals, and contribute data to science.

Earth Avengers Camp
August 17–21
Campers make a difference at NYBG! Learn about native and exotic plant and animal species. Campers can advocate for natural habitat restoration by creating seed “bombs,” bird and bat houses, and insect hotels.

*Early drop-off (8 a.m.), late pickup (5 p.m.), and extended pickup (until 6 p.m.) available. Pre-registration is required.
